CHRISTMAS TREES

CHRISTMAS TREES

NATURTROGNA GRANAR FÖR ALLA BEHOV

Vi erbjuder ett mycket brett sortiment av granar i olika prisklasser och olika storlekar upp till fem meter. Här hittar du granar för olika behov och med olika egenskaper samt ett brett utbud av kransar och girlanger. Dessutom finns flera granar med förmonterad belysning i form av modern, varmvit LED-teknik med lamporna jämnt fördelade, redo att kopplas in.

REALISTIC TREES FOR EVERY USE

We offer a very wide range of trees in different price levels and sizes up to five metres. Here you will find trees for different needs and with different qualities as well as a wide selection of wreaths and garlands. Many trees also come pre-lit with modern, warm white LEDs already assembled and evenly distributed ready to be plugged in.

ORIGINALGETREUE BÄUME FÜR JEDEN GEBRAUCH

Wir bieten eine große Produktpalette in verschiedenen Preiskategorien und Höhen bis zu 5 m an. Hier finden Sie Bäume für verschiedenste Ansprüche und in diversen qualitativen Ausführungen, sowie eine große Auswahl an Girlanden und Tannenkränzen.Viele der Bäume sind ebenfalls gebrauchsfertig mit modernen LED – Lichterketten versehen und müssen nur noch an das Stromnetz angeschlossen werden.

KONSTRUKTION

GÅNGJÄRN/PARAPLYTRÄD
Grenarna är permanent fastsatta vid stammen i gångjärn och fälls ned när man monterar granen.

LÖSA GRENAR PÅHAKAS
Enskilda grupper av grenar hakas fast i stammen när man monterar granen. Denna konstruktion används för mycket täta och fylliga granar så att de kan formas jämnt, men kan inte användas för pre-lit granar.

FASTSATTA GRENAR VIKS NER
Den vanligaste konstruktionen där grenarna är permanent fastsatta och viks ned när man formar granen. Ingen extra montering krävs även om stora granar kommer i flera delar som sätts ihop. På wrapped assembly granar kan du justera grenvinkeln efter tycke och smak när du viker ned dem eftersom det inte finns något stopp på grenarna.

CONSTRUCTION

HINGED/UMBRELLA TREE
The branches are permanently attached to the stem in hinges and are folded down when assembling.

HOOK ON ASSEMBLY
Individual groups of branches are hooked onto the stem when the tree is being assembled. This design is used for very thick and full trees to allow them to be evenly shaped but cannot be used for pre-lit trees.

WRAPPED ASSEMBLY
The most common type of construction. The branches are directly attached to the stem and are bent down when shaping the tree. No assembly is required, but the large trees come in separate parts that have to be put together. On the wrapped assembly trees you can adjust the angle to your liking when you fold them out since the branches don't come with a stop.

KONSTRUKTION

SCHARNIER/UMBRELLA BAUM
Die Zweige sind permanent mit einem Scharnier am Stamm befestigt und der Baum entfaltet sich von selbst beim Aufbau.

EINHAKEN BEIM AUFBAU
Individuelle Gruppen von Zweigen werden beim Aufbau in den Stamm eingehakt. Dieses Design wird für sehr füllige und dichte Bäume genutzt und erlauben eine sehr gleichmäßige Formung des Baumes. Diese können allerdings durch Ihre Beschaffenheit nicht mit eingearbeiteter Lichterkette geliefert werden.

GEFALTETER AUFBAU
Die häufigste Art des Aufbaus. Die Zweige sind direkt mit dem Stamm verbunden und werden beim Formen des Baumes nach unten gebogen. Es ist kein aufwendiges Zusammenbauen nötig. Allerdings können je nach Größe die Bäume in wenige Teile zerlegt angeliefert werden. Beim gefalteten Aufbau können Sie den Winkel der Zweige ihrem eigenen Geschmack anpassen wenn Sie die Zweige zurechtbiegen, da es hier keine Begrenzung gibt.
